

KEY TO RICHES ASSEMBLY

**Thank you for your purchase of our Key to Riches promotional game.
Your machine package includes 1 Key to Riches cabinet, 1 Key to Riches stand, 1 key bag with (2) mounting screws, 1 rotating beacon, 2 acrylic display stands, 300 fake keys and 2 correct keys.
Please use the following pages for proper assembly of your machine.
You may call 800-747-1144 for technical assistance.**

**Fun Industries, Inc.
627 15th Ave.
East Moline, IL 61244**

Step 1: After removing all components from their shipping cartons, lay the base stand on its back and locate the (2) threaded inserts on the underside of the stands top panel and attach the key bag using (2) phillips machine screws. Fully tighten.

Step 2: Stand the base upright and set the machine on the base. Tip the machine forward and insert the machine power cord through the hole in the top of the base. Then set the machine back down flat on the base.

Step 3: Plug the machine power cord into the outlet located on the rear of the stand. Plug the main power cord at the bottom of the stand into a wall outlet and turn the power switch on.

Step 4: Attach the rotating beacon to the lid of the machine and plug it in to the outlet on the rear bottom of the machine.

Step 5: Using the correct key, open the machine door one of the acrylic display stands. There are two sizes provided. Use these stands to display the prize you are offering. Then lock the door.

Step 6: Remove the rings from your fake keys and insert up to 300 fake keys into the key bag. Then insert one real key into the bag and mix them up. Your machine is now ready for operation.

You can adjust the odds of pulling the winning key from the bag by using more or less fake keys. All keys included with your machine look and feel the same except for the key code stamped on the two correct keys. Only the correct key will fit into the lock. This prevents contestants from possibly breaking the wrong key off inside the lock. Additional keys and locks with different key codes are available if the future need may arise.
